

Method 1 : USING AN EXISTING RING

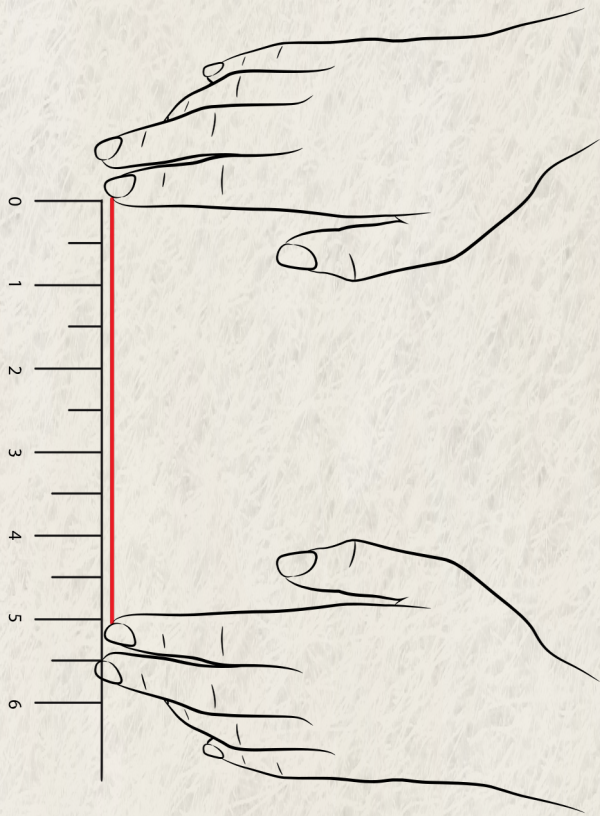

- Choose a ring that already fits your finger well. Measure the inner diameter of the ring in millimetres (mm). Use the measurement given below to match the size of your ring to the closest Silver Bird size in mm.

Method 2 : THE HANDS-ON APPROACH

- Get a measuring tape, string or strip of paper.
- Wrap it around the finger you'll wear your ring on.
- Using a pen or marker, mark where the ends meet.

- Lay your string or paper strip on a flat surface and use a ruler to measure the length in millimetres (mm). This is the circumference of your ring.
- Use the chart given below to map this circumference to the diameter. The mapped diameter is your ring size. Use it to buy your chosen ring online at Silver Bird.

FOR BEST RESULTS

- ◆ Measure during the end of the day, as your finger may be at its largest.
- ◆ Avoid measuring your fingers when they are cold or damp.
- ◆ Measure finger size 3-4 times to avoid any errors.
